Market closing—Nothing could be more uninteresting and monotonous than the action of the market in late afternoon. Rock Island issue declined to low points, and American Ice advanced to 31 3/4, closing at 31 1/2, up 1/2 points, but the general market did not change anything to speak of. Total sales, 294,458 shares.

Opening—A higher level of prices prevailed at opening, but trading was quiet, and there was an inclination to await some further announcement regarding rate matter. There is, however, no longer any reason to doubt that the case will be expedited. The detail issued by Mr. Clark on Wednesday afternoon was of a purely technical nature.

In Steel the initial transaction was at 60 1/4, a gain of 1/4. The stock was strong on argument that an advance in rates would result in an increase of orders from railroads. General Motors stocks were strong and active in response to the report published a few days ago that net earnings are expected to be large this year.

Summery preferred opened at 33, an advance of 1/2, on the prospect of a satisfactory solution of the company's financial problem. Trading was dull during the first half hour and business was confined to a few stocks in a way which suggested that dealings were professional. Ice was a strong specialty, advancing to 30 1/4 on rumors of a restoration of dividends.

The comparative unresponsiveness of the market to good news in the first hour was attributed by some of the bulls to the weather. The undertone, however, appeared to be good and fractional advances took place in a few issues. General Motors common gained 5/8 points, to 75 1/2, and preferred 1 1/2, to 56, on rumors of plans to open the way for dividend payments on common stock.

No particular tendency developed during second hour. Chesapeake and Ohio spurred up to 65, a gain of 1 1/4 on few transactions. In early afternoon market merely stood still. Bethlehem Steel on a few sales advanced one point to 37 1/2, close to the high point for the year. There was some selling of Steel Sugar and the stock broke 2 1/4 points to 28, but the

WANT WILSON MESSAGE ON PANAMA CANAL TOLLS

House Democrats Would Like to Set Themselves Right With Constituents on Repeal.

WASHINGTON, Feb. 19.—President Wilson pressed further for repeal of the exemption clause of the Panama Canal Act in conference to-day with Congressmen. He talked with Senator Kern, majority leader, who said afterward that the Senate first would dispose of the arbitration treaties promptly and probably take up the tolls question immediately afterward. Although Mr. Kern voted for the exemption, friends of the Administration claim he will be among the administration supporters.

House leaders, it was announced to-day, desire some announcement or message to Congress by the President before reverting themselves on the question, so as to be able to make clear to their constituents that international circumstances had arisen requiring a change. Representative Underwood, it is understood, while still believing in the tolls exemption, will not organize any opposition to the President in the House.
